Pritam Behera

(+91) 8658535505 | beherapritam2003@gmail.com | Portfolio

EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY, ROURKELA

Bachelor of Technology in Metallurgical and Materials Engineering
Nov 2022 - May 2026
Rourkela, Odisha

NAIDU SCIENCE HIGHER SECONDARY SCHOOL, BHUBANESWAR

CHSE, Science (PCM)
May 2019 - July 2022
Bhubaneswar, Odisha

COURSEWORK

Data Structures and Algorithms
Database Management System
Object-Oriented Programming
Backend Development
Operating Systems

SKILLS

TECHNICAL SKILLS

Programming Languages:
C++ • Java • Go • Python • Javascript
Backend Technologies:
Spring Boot • Spring Security • Gin
FastAPI • Node.js • Express.js
REST APIs
Frontend Technologies:
HTML• CSS • React.js • Bootstrap
Tailwind CSS
Databases:
PostgreSQL • MySQL • MongoDB
Developer Tools:
Git • GitHub • Postman • Cursor
VS Code • Opencode • Antigravity
IntelliJ IDEA

SOFT SKILLS

Problem Solving • Teamwork
Analytical Thinking • Adaptability
Time Management

EXPERIENCE

XELRON | Software Development Engineer Intern

Python, FastAPI, PostgreSQL
May 2026 – Sep 2026 | Remote

- Engineered a User Management System using **FastAPI**, **SQLAlchemy**, and **PostgreSQL**, developing complete **CRUD REST APIs**, versioned endpoints, and robust request/response validation with **Pydantic**.
- Designed and maintained a scalable **PostgreSQL** database schema with custom **ENUM** types, implemented **Alembic migrations** for version-controlled schema evolution, and configured environment-driven database connectivity.
- Enhanced application security and code quality by implementing **bcrypt password hashing**, duplicate-data validation, and collaborating through **GitHub pull requests**, code reviews, and backend integration workflows.

PROJECTS

LINGUABRIDGE | Contextual AI Translation Chrome Extension

Python, FastAPI, Ollama, Qwen 2.5, JavaScript, Chrome Extension MV3

- Built an asynchronous **FastAPI** pipeline integrating **Ollama (Qwen 2.5:7B)** with context-aware prompts, JSON Schema-constrained generation, and **Pydantic** validation with automated retries.
- Implemented **sliding-window rate limiting**, TTL/LRU caching, request deduplication, and bounded context management, alongside Unicode sanitisation and prompt-injection safeguards.
- Developed a **Manifest V3 Chrome extension** for Telegram and WhatsApp Web using platform adapters, MutationObserver, Shadow DOM, and a service-worker API layer.

ALGOBOARD | Competitive Programming Analytics Platform

Java 17, Spring Boot, Spring Security, PostgreSQL, JWT, React, JavaScript, Tailwind CSS, Chart.js

- Designed and developed **15+ REST APIs** using **Spring Boot** and layered architecture, integrating Codeforces, LeetCode, CodeChef, and AtCoder through **REST APIs, GraphQL, and Jsoup-based web scraping**.
- Optimized data aggregation using **CompletableFuture** for concurrent fetching, timeout handling, and graceful fallbacks; implemented **Spring Cache** with configurable TTLs and optional **Redis** to reduce API calls and latency.
- Implemented authentication using **Spring Security, JWT, BCrypt**, token-version session invalidation, email verification, and sliding-window rate limiting; built a responsive **React** frontend with **Chart.js** dashboards.

PARKINGLOT | ParkingLot Management Application

Spring Boot, Java, MySQL, REST API, HTML, CSS, JavaScript

- Designed a backend parking management system handling **150+ parking slots** with automated ticket allocation, billing, and real-time slot tracking.
- Built secure server-side services using **Spring Security**, **JWT**, **BCrypt**, OTP verification, and role-based authorization.
- Optimized **MySQL queries** and implemented automated billing, **PDF report generation**, and **RESTful APIs** for efficient data management.

COMPETITVE PROGRAMMING

LeetCode (Guardian): Max Rating: **2236**, Best Rank: **231**, Top **0.76%** Globally
CodeChef (4★): Max Rating: **1804**, Best Rank: **173**, Top **4K** Globally
Codeforces (Specialist): Max Rating: **1479**, Best Rank: **1229**
